

saunum

Home spa sauna heater

saunum premium

Sauna Premium is a Nordic sauna heater with an award-winning minimalistic design. The patented air mixing system, the large number of sauna stones, Himalayan salt balls, and modern features make this sauna a relaxing home spa, adding new qualities to your sauna experience. Enjoy a soft steam sauna, a sauna enriched with salt ions, a humid steam-rich sauna, a sanarium, or an aroma sauna.

Home spa sauna heater

Saunum premium

The Saunum Premium heater is designed for the modern sauna lover, who appreciates both design and well-being, and wants to enjoy a modern sauna at its best. With the Leil control unit, it is very easy to control the heater and the sauna climate device – you can heat the sauna and adjust the climate with just a few taps directly from the touch screen or from your smart device.

Saunum Premium offers a unique steam experience and a relaxing five-in-one home spa solution. With the Saunum device, the steam is softer, and the steam mixed with cooler air makes it easier to breathe. Water can be thrown more often to produce more steam, making the sauna air more humid, and ensuring more intense sweat. After the steam, no headache or sauna fatigue occurs.

Five-in-one
home spa

Long mild
steam

Easy to
breathe

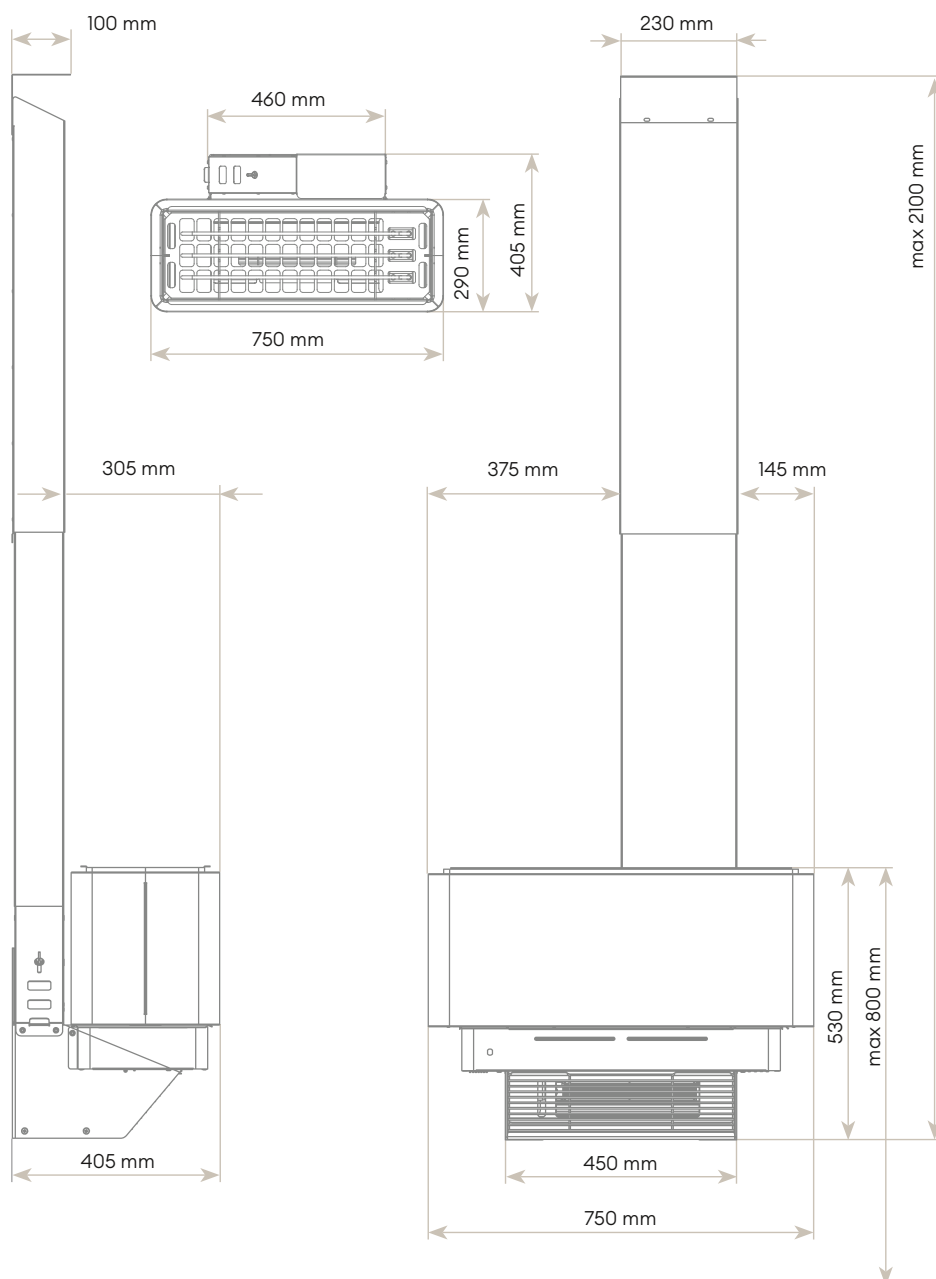

Suitable for
the whole family

Power of the heater	6 kW	9 kW
Sauna room	5-8 m ³	9-12 m ³
Min height of the room	200 cm	200 cm
Min safety distance from the heater:		
sides	50 mm	50 mm
front	75 mm	100 mm
from stones to ceiling	1000 mm	1000 mm

Additionally required

Heater stones Ø 5-10 cm	85-90 kg	
Fuse, 3 phases	C10	C16
Power cable for the heater, 3 phases	5 x 2,5 mm ²	5 x 2,5 mm ²
Power cable for the climate device, 1 phase	3 x 1,5 mm ² / with Saunum Leil control device 5 x 1,5 mm ²	
Control unit	Saunum Leil or Saunum Leil Mobile	
For the aroma sauna	Saunum sauna oil set	
If wall installation is not possible	Floor stand	

Included

heater, climate device, salt balls 7 pcs

Colour selection

genuine copper, anthracite grey, white

Climate device

3 speed levels, vent adjustment

Weight

45 kg

Height of the device

adjustable 1400–2100 mm

Height of the device with floor stand

adjustable 1550–2250 mm

Depth and width of the device

405 mm x 750 mm

Choose the heater with power adequate to the cubage of the sauna room

However, for non-insulated walls (brick, glass block, glass, concrete, floor tiles, etc.) a more powerful heater is needed. Add 1.2 m³ to the cubage of the steam room per each square meter of uninsulated wall.

For example, a 10 m³ sauna room with a glass door corresponds to the power requirement of a 12 m³ sauna room.

How do Saunum's heater and climate device work?

Saunum's patented air-mixing system traps the scorching steam, that rises under the ceiling of the sauna room, mixes it with cooler air on the floor surface, and directs the soft steam back evenly. This ensures a more even temperature of the steam, and the oxygen-enriched steam makes it easier to breathe. Water can be thrown more often to produce more steam, making the sauna air more humid, and ensuring more intense sweat.

With a patented method of enriching the air with salt ions; the salt ions, from the Himalayan salt balls, added to the sauna climate device are emitted into the circulating air to reach the skin and respiratory tract.

An even more relaxing sauna experience is created with the help of the aroma system, which mixes sauna oil aromas with the steam. It is a healthy alternative to burning aromatic oil on stove stones.

Relaxing sauna and home spa

Try different settings and steam intensities and add your favourites to the selection of steam types on the control unit.

Classic Nordic steam sauna

Temperature 60–100 °C

Speed level 1 of the climate device

The valve of the climate device is 25% open

Humid steam-rich sauna

Temperature 45–60 °C.

Speed level 2 of the climate device

The valve of the climate device is 100% open

The lower the temperature, the more open the valve and the higher the speed of the climate device, the more steam is generated when throwing water on a heater.

The mild sanarium

Temperature 40–55 °C

Speed level 1 of the climate device

If you prefer a humid, steam-rich sanarium, keep the valve of the climate device at least 25% open.

Sauna enriched with salt ions

Temperature 40–100 °C.

Speed level 1 of the climate device

The valve of the climate device is 25% open

The salt balls added to the climate device work at any temperature, if the sauna climate device is switched on.

Relaxing aroma sauna

Temperature 40–90 °C

Speed level 1 of the climate device

The valve of the climate device is 25% open

Add some Saunum aroma oil to the sauna device and enjoy!
